CSI Lab

## Phase 0: Learn About a New Way of Working

Desire a new way of working

→ Connect with innovation community and get oriented to the Agile mindset

→ Imagine the value proposition & align your stakeholders.

→ DIY project: connect with the Lab to share your learning!

- OR -

→ Accelerate your team at the CSI Lab: meet criteria & create a partnership agreement.

CSI Lab Offering

Training: Agile Fundamentals (free), Certified Scrum Master, Certified Scrum Product Owner, Agile Leadership, DevOps
Community: Tour the Lab, attend Lunch & Labs, join channels of communication: Rocket.Chat, LinkedIn, @Work, Yammer,
Advisory: Coaching for "CSI-style" team, organization development, and lab intake coaching, including stakeholder alignment.

Phase 1: Build Your Team and Define your Minimum Viable Product

Assemble a Team

→ Product Owner (BCPS)

→ Scrum Master, Development & UX Talent (BCPS & Vendors)

→ Space, training, community connections.

→ Ready, Set, Go: Team Inception

→ Align stakeholders with Vision and Problem statement; clarify Minimum Viable Product

→ Present and invite feedback from CSI Lab community and resident experts

CSI Lab Offering

Discovery Coaching: Tools, methods, product roadmapping,
Provisions: Team room, tables, chairs, coffee, monitors, whiteboards, post-its, server space, pipeline, BCGov Github Access,
DevHub resources and innovation experts on tap.

Phase 2: Build and Release your Minimum Viable Product

Develop a Proof of Concept

→ Sprint through the Roadmap

Groom Backlog and Sprint Planning ⇄ Sprint Review (Demo to Stakeholders)

⇄ Release: Alpha, Beta… Demo Product to Community

CSI Lab Offering

Health Checks & Support: Code/Product Quality Assurance, Executive alignment, value metric development
Prepare for graduation: Home agency structure and culture adjustments, leadership support, product portfolio development

Phase 3: Product Live Release and Team Graduation

Live release!

→ Will the org build more products?

— Yes → Transition out of Lab (ideal), continuously improve product, and add new product to the team's backlog.

— No → Collapse the team and ensure capacity in home organization for ongoing continuous improvement.

CSI Lab Offering

Closure: Host an event, communicate to the world, work with home agency to facilitate transition.

6 months to 1 year
